Terms of Business for Century Power Systems

For the purposes of these Terms of Business (hereinafter, "Terms"), "us" or "we" shall refer to Century Power Systems and "you" shall refer to you, our customer. You have requested that we undertake certain works for you and, by allowing us to proceed with those works, you are indicating your agreement to the Terms set out below.

1. Estimate

The value of the estimate is what we expect to charge you for the works, based on our initial discussions. In the event of unforeseen circumstances or unexpected issues arising, it may be necessary to review the original price and provide you with a new estimate. You have the right to accept or decline the revised price.

2. Written Proposal

The written proposal and the quoted price follows the estimate and is the final price for the works discussed, including labor and materials, additional costs including expenses (if any) and tax. Any subsequent variation to the works (including, without limitation, if you change the scope or if unforeseen circumstances or unexpected issues arise) will likely result in a new or revised written quotation. You have the right to accept or decline the new quotation. Should you choose to decline, all works will cease and, on receipt of our invoice, you must pay in full for all works already completed in accordance with the original quotation.

3. Client Obligations

- (i) if you and we agree that you will be responsible for providing the measurements for some or all of the materials and/or products needed for the works, you alone will bear the cost of replacing the said materials and/or products in the event the measurements are incorrect;
- (ii) if you and we agree that you will be responsible for providing some or all of the materials and/or products needed for the works, you alone will bear the cost of replacement in the event the said materials and/or products turn out to be faulty and/or unsuitable;
- (iii) you will inform us, prior to the works commencing, of any hazards or potential hazards known or suspected in or around the premises where the works are due to be carried out;
- (iv) you will grant us access to the premises where the works are to be carried out and will ensure that all necessary consents, permissions and licences, if any, have been obtained in advance of the works commencing;

4. Vendor Obligations

- (i) we will undertake the works with all due care, skill and diligence, will complete the works within a reasonable timeframe, and will ensure that we comply at all times with all applicable laws and regulations;
- (ii) we will supply materials and/or products needed for the works (if any) that are of high quality and, without prejudice to 3(i) above, will take full responsibility for replacing any materials that prove to be faulty or substandard;
- (iii) we will take good care of your property, furnishings and wall coverings and, on completion of the works, will remove any resulting waste material;
- (iv) we confirm that we hold, and will continue to hold, a valid and current Insurance Policy and, where relevant, Employers Liability Insurance Policy.

6. Force Majeure

Neither party shall be held liable for any delay or failure in fulfilling their obligations under these Terms where such delay or failure results from circumstances beyond that party's control (including, but not limited to, an act of God, fire, act of government or state, prevention from or hindrance in obtaining any raw materials, energy or other supplies, industrial action or labour disputes of whatever nature, and any other reason beyond the control of that party).

7. Cancellation

Should you wish to cancel the contract between us in respect of the works, you have fourteen (14) days in which to do so following your acceptance of our quotation. You are obligated to pay for any services provided to you during this 14-day cancellation period, if any.
